#### Notes

- All to ring the Marshall in the week and again the night before the dive for an update and to confirm your place
- In the event that you have to pull-out of a dive please inform the Marshall ASAP, but it is **your** responsibility to find a replacement – if you are a 'no show' you still pay!!

#### Marshalls

- All times are approximate; any doubts please check beforehand
- Where an appointed person is unable to carry out his/her task it is up to the relevant party to arrange a swap with someone who can
- All times are expressed as BST
- Slack times are calculated as roughly 45 minutes after HW Christchurch entrance and approximately 30 minutes before LW. The 'dive window' is based on there being 1m at Christchurch entrance
- Complete a risk assessment for each dive and forward to DO

#### Boat Handler

- Please notify all by email or text how the boat is running, any defects, fuel status and location of keys, electronics and tanks following each dive
